Elevator Technology

# Tips for Riding Elevators During COVID-19

thyssenkrupp

TIP 1
Do take the stairs, if you are able

TIP 2
Do maintain social distancing
Don't ride a crowded elevator, wait for the next one

TIP 3
Don't be impolite but ask others to wait if they try to get on a crowded elevator

TIP 4
Don't lean against the walls

TIP 5
Do cover fingers with a cloth or glove
Don't directly touch the buttons or handrails

TIP 6
Do wash your hands immediately after each trip

Elevator sizes vary. It is important to assess the number of riders before you enter. Don't touch surfaces and clean your hands immediately after exit.

For more tips on protecting yourself around others, see CDC guidelines.
